

Shooting Times

During the indoor season the club shoots in the school's main sports hall. This modern facility enables Fast and Loose members to shoot distances of up to 30 metres in comfort during the winter.

During the outdoor season, shooting moves to the playing field behind the school. This sports field is well maintained by the school and it enables distances of up to 90 metres (100 yards) to be shot, with a clear overshoot area.

Guests welcome, shooting fee payable. Please contact the club in advance.
Your Archery GB card will be requested on arrival or at any time during the session.

However, the more competitive archers will brave inclement weather to gain valuable practice and experience in all conditions.

NOTE: All shooting days are subject to the facilities at the school being available. School events, Bank Holidays and other factors can result in sessions being cancelled at fairly short notice.

All club sessions are designated Club Target Days unless notified.
